

HOLLOW CORE TUBULAR PARTICLE BOARD

33 mm | 1180 × 2090 mm

Origin: China

Lightweight tubular particle board designed for interior door core and partition applications.

TYPICAL TECHNICAL DATA

Product Type	Tubular Chipboard / Hollow Particle Board
Thickness	33 mm
Panel Size	1180 × 2090 mm
Moisture Content	5–13%
Thickness Swelling in Water (2 h)	≤ 5%
Density	< 400 kg/m ³
Density Deviation	± 5%
Static Bending Strength	≥ 1.5 MPa
Internal Bonding Strength	≥ 0.5 MPa
Applications	Door core, countertop, partition wall
Packing	Export pallet packing

KEY FEATURES

- ✓ Lightweight structure
- ✓ Easy handling and machining
- ✓ Suitable for interior use
- ✓ Efficient core solution for doors
